...FROM THE FOLLOWING 3
PROGRAM OPTIONS. YOU CAN
STAY WITHIN THE SAME
STREAM ALL SUMMER, OR YOU
CAN PICK AND CHOOSE IN 3
WEEK SEGMENTS

1 THE POP STAR

Weeks 1-3 Learn the Leadsheets - Choose two of your favorite Top 40 songs from my stack and learn how to improvise a seriously cool left hand accompaniment. Learn all about chording and how to sound like a pro.

Weeks 4-6 Sing and Play - learn how to use chording to accompany yourself as you sing. We'll explore two awesome songs that go well with piano and show you how to sing and play like a star.

Weeks 7-9 Produce a Record - Record two of your own compositions from the year. Learn how to add effects and other instruments to the track for a totally cool end result. We'll have a mini photo shoot and create CD cover art for your very own two-track record.

2 THE COMPOSER

Weeks 1-3 Muttzart Needs You! Using "The Curious Case of Muttzart and Ratmaninoff" we'll work to help Muttzart re-create Isabella's destroyed compositions before it's too late! Learn all about composing and create your very own pieces right from the very first lesson!

Weeks 4-6 Mary Had A Little Shark - have fun twisting some well-known pieces and making them your very own. We'll be learning about theme and variation and improvisation as we take simple pieces and make them ah-maaaz-ing!

Weeks 7-9 Show Your Stuff - learn how to use music notation software to publish your compositions as real live sheet music! Perform your own creations during our Composers Coffee House evening where you can trade your sheet-music with your friends and even offer it up for sale to the audience during our charity sheet music auction!

3 THE SHOW OFF

Weeks 1-3 Riff Raff - Piano can be every bit as cool as the guitar! We'll be learning how to play some famous piano riffs that will knock your friends' socks off! No you don't need to learn the entire song... these are just riffs! Show your stuff with just the really good parts.

Weeks 4-6 Fast and Furious - learn some good muscle-building exercises and technique to really make your fingers fly. Then, take on a piece that will light your keyboard on fire! The use of safety goggles during lesson time is suggested.

Weeks 7-9 Fearless Fortissimo - take a comic book adventure and bring it to life using music from the series "The Adventures of Fearless Fortissimo". Get set for some seriously cool music that will impress and mystify.
