

Who We Are

*we believe in providing quality music lessons that are **relevant**, **motivating** and **fresh**.

*we believe in music lessons that focus not only on the acquisition of skills, but the **enjoyment** of learning and the **celebration** of the "aha!" moment.

*we **invent** our own materials and programs to ensure that what we teach is **UNIQUE**, **innovative** and **edgy** and make it a priority to recognize student achievements in ways that are **meaningful** and **FUN**.

*we believe in **HAPPY** teachers passing on their **passion** for music to **happy** students who are **excited** about what they are learning.

*we believe in modeling how music can do **good** in our **COMMUNITY**, and boosting **self esteem**.

*we believe in home practising because it's **fun** (not because you have to), the right to make mistakes, weeks that were just too busy, and **playing** from the **heart**.

*we believe our program is **one of a kind**, that we will continue to **evolve** and **RE-INVENT** and that our students will always be our **inspiration** to do more.
