

Mole Music

a lesson plan for the
start of a new year

When Mole first started playing the violin he found it very challenging. In each of the bubbles above, write one thing you could say to yourself if you ever get frustrated learning the piano.

Mole imagined all of the wonderful things he could do with his music. In each of the bubbles above, write **ONE GOOD THING** you could do with your music (ie. cheer up my baby sister when she is sad).

If Mole came out of his hole, what do you think people would say to him about his music? Write your answers in the boxes above.
