

INTERVALACTIC

Christmas Expansion Pack

Santa, Elves, Penguins... and planets?! Where are we?

Welcome to **Winter World** where *intervals* meet *video games*. Can your piano students work to conquer each level? What exciting new scenes are waiting with each turn of the page?

Intervalactic: A Christmas Expansion Pack provides three pages of fun... designed to reinforce recognition of melodic intervals of a 3rd, 4th and 5th in both the treble and bass clefs.

While blasting through the different winter worlds, your piano students will learn to recognize and read intervallic relationships with as much ease as they do steps and skips.

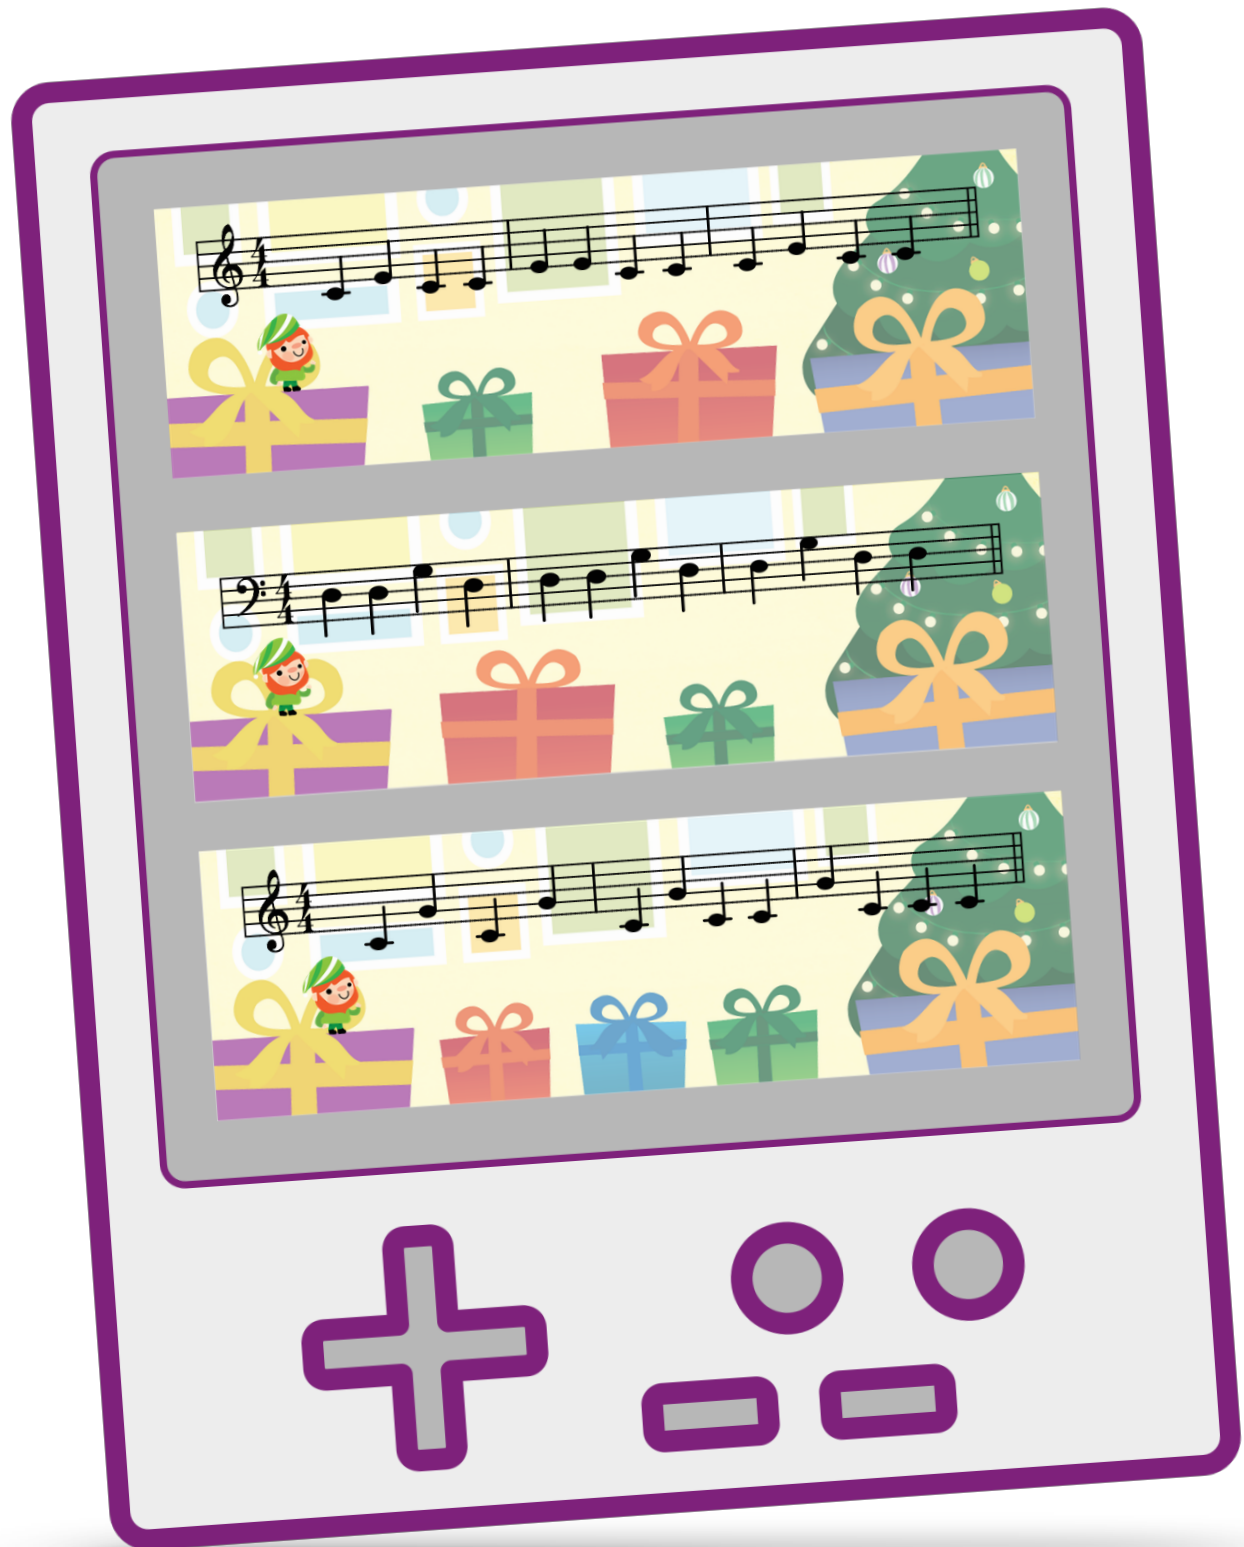

This “Christmas Expansion Pack” is an add-on to our November Book of the Month from PianoBookClub, *Intervalactic: a musical adventure in deep space*. Each Early Elementary piece in the book isolates a specific interval and is preceded by a Video Game Practice Page for fun practice and drill.

Challenge your students to sight read these “interval games”. Can they make the intervallic leaps to avoid falling into the abyss and make it to the end of each level?

Have fun!

Andrea and Trevor

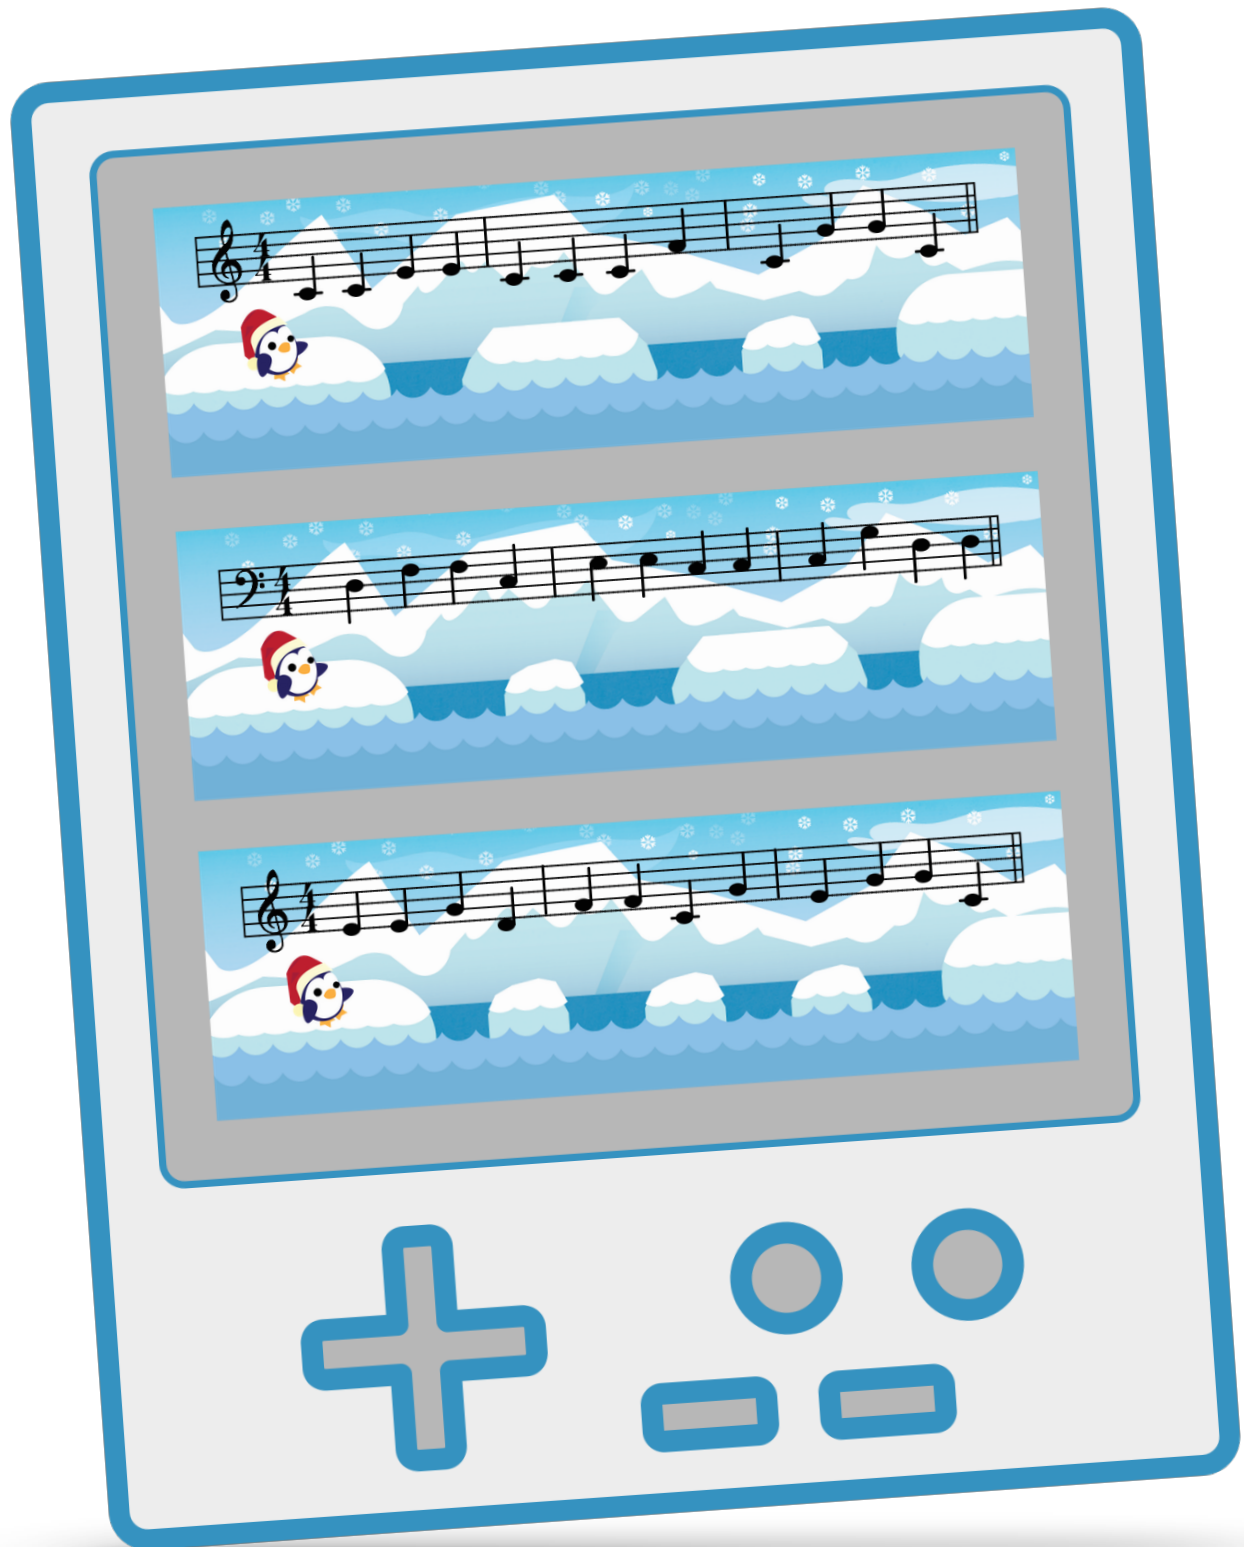

ELFEUS: LEVEL 1

SANTASI: LEVEL 2

PENGUINA: LEVEL 3

WANT MORE?

Intervalactic...

from PianoBookClub comes with
7 incredible piano pieces and
7 more interval practice pages (like
the 3 in this resource) composed
for your space-obsessed students.
