

- 1 Let's practice listening for major and minor chords. To begin, I will secretly choose five numbers between 1 and 45, record them on a slip of paper and hide the paper until the game is over.
- 2 Next, I will play a major chord or a minor chord. Tell me if the chord I played was major or minor and then roll a die.
- 3 If I played a major chord, color a number of **squares** below that corresponds to the value on the die. If I played a minor chord, color a number of **circles** below that corresponds to the value on the die. Let's play three more rounds.

MAJOR BATTLE

Scoring The Game: After all rounds are complete I will reveal the secret numbers. Examine the numbers inside each shape below. Score yourself one point for every colored shape that **contains a secret number**. You can try to beat this score in future games.

1	2	3	4	5	6	7	8	9
10	11	12	13	14	15	16	17	18
19	20	21	22	23	24	25	26	27
28	29	30	31	32	33	34	35	36
37	38	39	40	41	42	43	44	45
