

SNAP THAT!

- 1 **Sit on the floor** with this printable. Cover each key signature with a coin. Start a timer.
- 2 Remove any coin from a key signature and then name the revealed major key. Next, roll a die and then find the die image in the legend that corresponds with the value rolled. If the name of the major key below the die image matches the revealed key signature, keep the coin. If not, place the coin back over the key signature.
- 3 Keep playing until you have removed three coins from the game board. Write your finishing time at the top of this page.
