BRIDGE BOLT

PIANO BOARD GAME

1. To play Bridge Bolt the student needs the game board, a pencil, and a die.
2. To begin, the student rolls the die and then locates the note name in the treble C five-finger scale that matches the number rolled.
3. Next, on any staff below the note name located in Step 2 the student draws a note image that matches the note name.
4. The student repeats Steps 2 and 3 until each staff in a column below one note name contains a note image.
5. If the first completed column is above the billy goat, the student wins the game. If the first completed column is above the troll, the student loses the game.
6. If the student loses the game she must draw note images on any remaining blank staves. If the student wins the game, the teacher must draw note images on any remaining blank staves.
