

Use today's ear training game with teen piano students who are working in an intermediate level method book.

TEEN EAR TRAINING GAME

WUNDERKEYS INTERMEDIATE

POP STUDIES FOR PIANO

- 1 Let's practice listening for root chords and chord inversions. To begin, I will secretly choose five numbers between 1 and 42, record them on a slip of paper, and hide the paper until the game is over.
- 2 Next, I will play a major chord in root position OR in first inversion. Tell me if the chord I played was in root position or in first inversion and then roll a die.
- 3 If the chord played was in root position, color a number of **squares** below that corresponds to the value on the die. If the chord played was in first inversion, color a number of **circles** below that corresponds to the value on the die. Let's play four more rounds.

Scoring The Game: After all rounds are complete I will reveal the secret numbers. Examine the numbers inside each shape below. Score yourself one point for every colored shape that **contains a secret number**.

Intermediate Pop Studies For Piano 1 contains pop-infused studies to reinforce scales, chords, triads, and left-hand patterns in C Major, A Minor, G Major, E Minor, F Major, and D Minor.

Performance 1 supports Pop Studies 1 with piano pieces inspired by Mozart, Beethoven and more, thundering Celtic solos and original pop solos.
