POP FUSION SCALE SOLOS

WunderKeys Rock, Tuck & Roll: One Octave Scale Solos in C Major and A Minor is a revolutionary piano book (the first in the series) that turns boring scale exercises into motivating, pop-infused music. Using color-coded, one-octave scales and simple pop chords, it can be used with Level 2B students, intermediate Level 1 students, or anyone who needs a pop-infused approach to one-octave scale practice!

ROCK, TUCK & ROLL

NOTE READING

C MAJOR/A MINOR LEDGER LINES

1. 20 coins should be placed in a container beside the game board.
2. To begin, the student places three coins (heads up) over any three squares on the game board. Next, the teacher places three coins (tails up) over any three squares on the game board.
3. Either player rolls a die and then, in the legend, locates the note name that corresponds to the number rolled.
4. The student analyzes the game squares where her coins (heads up) were placed in Step 2. If the note image beneath a coin matches the note name selected in Step 3, she keeps the coin. Any coins that do not match are returned to the container.
5. Step 4 is repeated by the teacher.
6. After all coins are removed from the game board, Steps 2 - 5 are repeated until a player collects 10 coins and wins the game.
